Peter Manning	X (notes)		Niki Woodhouse		X
Dan Davis	X		Wet Rocks Engineering - UMaine Capstone Project (zoom)	X	

Agenda / Discussion Items

Topics
<p>The Wet Rocks team shared the work they have done so far.</p> <ul style="list-style-type: none"> ● Map was created using multiple layers. Shadings created delineating users of each leech bed. ● They communicated with Travis Targett regarding mapping issues they have run into. ● They will be talking with him again. ● They will be calculating flow rates for each bed using bedroom data, and by water meter flow rates. <p>Bobby inquired about how the town will be able to access and change the maps in the future. He will be contacting Leanna to see if the town has an engineering firm that they use and what their GPS software is for compatibility. He will also ask about any beds other than the Keenan beds that have been replaced.</p> <p>Peter shared some trial rates calculations based on water meter data. 7 rates were tabulated. He will be calling Maine Rural Water to find out if the rates calculated are comparable to other systems.</p> <p>Suzanne moved Dan seconded a motion to adjourn the meeting. Unanimous vote at 6:18</p> <p>Notes by Peter Manning</p>
