Agenda / Discussion Items

Topics
<p>5pm Bobby Called the meeting into order</p> <p>1st order of business review meeting minutes from last meeting. After review, Peter Manning moved to accept as written, Suzanne Dunham seconded the motion. Motion was then accepted unanimously.</p> <p>Next order of business was Peter Manning updating his efforts with mining/organizing data</p> <p>Next: The Capstone Project students outlined verbally where they see they can help Kingfield with this project.</p> <p>GIS Mapping - GEO technical, possibly layered (Need to see if we (UAC Committee/Town of Kingfield) can get access to a view-only license for GIS</p> <ul style="list-style-type: none"> ● Provide a system Evaluation Tool with defined criteria and KPIs ● Review/report on optional systems ● Assist with applying data points from Peter Manning's efforts, to be applied for water in/wastewater out to see if any assumptions/predictions can be made by using the Keenan Beds as a benchmark <p>it was mentioned that they could possibly help review other like-small-towns in Maine to compare pricing and systems but that is lower on the priority list for their efforts.</p> <p>Next step is for the students to provide questions in advance of a meeting to be requested/held with Travis Targett.</p> <p>Requesting a meeting this Monday or next Monday between 11am and 1pm - (if possible, 12pm would be perfect). Bobby will help to coordinate and also invite UAC members to listen in</p>
